**WebMD Cholesterol Medical Expert, Dr. Michael Richman has co-authored “The Lipid and Lipoprotein Disorder: Current Clinical Solutions Pocket Guide”™.**

Los Angeles, CA – October 26, 2009 –Dr. Michael Richman, along with noted lipid specialists and researchers, Dr. Thomas Dayspring and Dr. William Cromwell have created; The Lipid and Lipoprotein Disorder: Current Clinical Solutions Pocket Guide™  
A simple, laminated guide that provides clinicians and healthcare providers with all that is needed to make accurate clinical decisions at the point of care including:

- \* Dyslipidemia recommendations Summary.
- \* Diagnosis and Assessment of Disease.
- \* Basis Lipid/Lipoprotein Physiology and Definitions.
- \* CHD Risk Classification.
- \* Major Cardiovascular Risk Factors.
- \* Risk Factors Associated with the Metabolic Syndrome.
- \* Estimate of 10-Year Risk for Men and Women (Framingham Point Scores).
- \* Current Medication Tables with Brand and Generic Names.
- \* Detailed drug information: strengths, formulations and comments.

As part of the GUIDELINES series, The Lipid and Lipoprotein Disorder: Current Clinical Solutions Pocket Guide™ is a spiral bound, laminated pocket-sized guide containing society-endorsed evidence-based treatment guidelines in a brief algorithmic format designed for practicing clinicians, quality managers, nurses, educators, and medical students.

This practical quick-reference tool contains screening, diagnostic, treatment algorithm, drug therapy, dosing information, patient monitoring and counseling points for professionals seeking answers about dyslipidemia. The Lipid and Lipoprotein Disorder pocket guide can be purchased at [www.lipidcenter.com](http://www.lipidcenter.com)

**Michael F. Richman, MD, FACS, FCCP** is a cardiothoracic surgeon and lipid specialist and is medical and scientific director of The Center for Cholesterol Management in Los Angeles, California.
